

# CO<sub>2</sub> is the 'essential' plant food

Carbon Dioxide + Water + Light = GROWTH

Of these, CO<sub>2</sub> is the key ingredient!

Get the 'maximum' effect with

*I do the control work...  
You get the Harvest!*

**HARVEST-MASTER®**

## CO<sub>2</sub> EASi

Low cost, intelligent CO<sub>2</sub> enrichment control in one easy to use package.

### With CO<sub>2</sub>

(Bottle and regulator or Burner not included)

*3-4 crops  
in the time  
of one  
usual crop!  
(Lettuces in 2  
weeks not 8.  
Sunflowers in  
bloom at 3  
weeks not 12)*

- **Increased Yield**
- **Low Cost**
- **CO<sub>2</sub> & Room Performance Monitoring!**

#### Ready to Operate. Factory Preset.

- Scientifically proven optimum CO<sub>2</sub> levels pre set, to suit a wide variety of herbs, flowers or fruiting crops.
- So easy to use, just plug in and watch it go!
- Uses light sensor to start CO<sub>2</sub> enrichment.
- Has High Temp sensor to disable burner.
- Plug In options for Cooling and Fan control (see below!)

#### Self Learning & Automatic Calibration!

- As soon as CO<sub>2</sub> EASi is switched ON, it learns how CO<sub>2</sub> enrichment works in your room, including whether you use Bottle or Burner.
- Continuous learning and adjustment; all day, everyday. CO<sub>2</sub> EASi will understand, calculate and predict enrichment operations for optimum growth.

#### Bonus Feature: Performance Monitoring!

- **Consumption:** Automatic calculation and display of CO<sub>2</sub> consumption rate, with predicted bottle life remaining!
- **Efficiency:** Shows "Percentage of Optimum CO<sub>2</sub> Enrichment time" achieved! Automatic and continuous evaluation of cooling and exhaust systems efficiency. Identifies where improvements can be made for more growth, increased yield, reduced CO<sub>2</sub> use and lower electricity costs.

**CO<sub>2</sub> sensing and control, with advanced monitoring of grow room performance.**

#### Plug in Options.

- Cooling AND Fan control.  
Simply add standard Harvest Master relay switches, for additional automatic control of Cooling units and/or Fans!

*CO<sub>2</sub> EASi is an  
upgradable component  
of the Harvest-Master®  
range.*
